## About Us

Opia Innovation Health and Medical Industry. ve Tic. Inc. was established to design and manufacture medical products. Opia, disposable sterile and nonsterile health, hygiene and protective materials; produces sterile surgical packs, sterile surgical gowns, sterile drapes and sterile device covers, non-sterile patient and staff, visitor protective clothing. Apart from these products produced for the health sector, we also offer the industrial sector; Asbestos Overalls, Helmets, Glasses etc. We also manufacture products such as Adopting the principle of "Unconditional Customer Satisfaction" and at the same time "Producing High Quality Products", Opia is always the solution partner of its customers with its clinical studies with surgeons, doctors and laboratory staff for the correct design and development of products and trainings for the correct use of products. . It closely follows the developments in the world and constantly updates all its processes.

Our goal is to reduce the cost of healthcare while increasing the safety of patients and healthcare professionals. MDR-CE produces in a hygienic environment conditioned in a sterile area within the scope of FDA, ISO 9001:2005 and ISO 13485. It has received the certificates in accordance with the CE standards required for production. Surgical bundles, which are produced with new technological machines without human touch, are packed and sterilized according to user demands. Production lines adjusted for a wide range of products were set up. In the sterilization process, all control tests are examined daily in its own laboratory. In addition, verifications are carried out in international laboratories.

## Our Mission

Opia was established to meet the needs of the sector, to produce high quality and best fitted products with innovative approaches, to contribute to customer satisfaction, safety and protection of human health.

## Our Vision

Leader in the sector with sustainable R & D activities, example of customer - employee satisfaction and social responsibility, Opia envisages to be a well recognized brand in the International Market.

# BEYİN CERRAHİ NEUROSURGERY

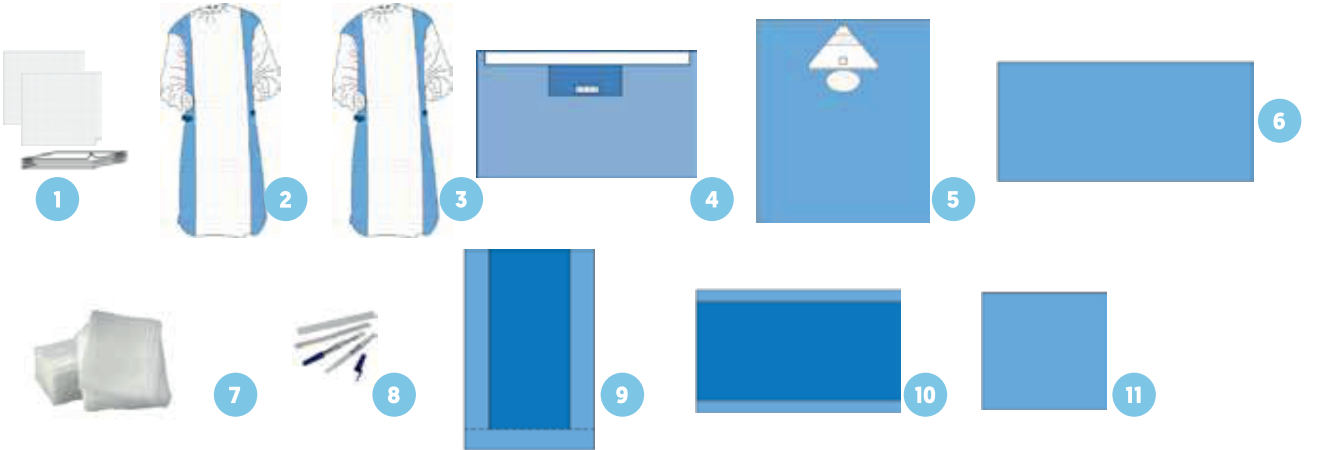

OPIA® surgical sets for neurosurgery support effective and efficient infection control and safety of patients and operating room personnel.

Together with our MDR approved surgical sets, they are made of impermeable materials to help protect against the passage of fluid and bacteria for patient safety. Absorbent work area and fluid collection bags help maintain a dry work area. The all-in-one design offers integrated related features and allows for easy and efficient draping by a single person.

Integrated fluid collection bag with outlets for effective fluid management and coated flexible wire edges to stabilize the bag when expanded

Please contact us for operating room efficiency and/or for more details.

# GENEL CERRAHİ GENERAL SURGERY

OPIA® OPIA® General Surgery sets are very much categorized within themselves. It is a flexible solution that can be combined to meet most surgical needs.

Opia General Surgery Sets are a surgical set approved by MDR. Impermeable, absorbent dressings with adhesive edges contribute to reducing wound contamination and the rate of postoperative wound infection. The critical areas closest to the wound are also reinforced with a stronger and more absorbent special material (additional products can be added if desired). For an even better fit, some of our OPIA® Universal covers and sets are also available with OPIA Flex stretchable, conformable adhesive edges. All folds are designed for optimum aseptic handling and easy application.
