

DISPOSABLE TYPE 3/4 OVERALLS

Product Description

Opia Medikal & Health, our disposable Type 3 and Type 4 coveralls are microporous, highly resistant to dry particles and liquid chemical splashes. Our Type 3 and Type 4 coverall has a breathable structure with our laminated microporous Non woven fabrics. It is extremely comfortable for long-term use.

The most important part of our products, which go through many stages in production, is keeping the sealing at the top level. The combination of microporous Coverall, soft polypropylene non-woven fabric and microporous film allows moisture vapor to escape to keep the wearer comfortable. It has good barrier property for wet or liquid and dry particles.

It provides good protection in highly sensitive environments including medical applications, pharmaceutical factories, sterile environments, non-toxic liquid handling operations and general industrial work areas. Ideal for Security, Mining, Clean room, Food industry, Medical, Laboratory, Pharmaceutical, Industrial pest control,

Machine Maintenance and Agriculture. In addition, every product that is produced is checked one by one by the quality control unit and packaged with the "quality controlled" stamp

Technical Standards
